Luke Buncle

PROFILE

Computer Science graduate with hands-on experience in data analysis, machine learning, and database-driven applications. Skilled in Python, SQL, and statistical modelling, with a track record of delivering analytical insights and interactive solutions. Seeking a data analyst or related role to apply technical expertise in solving real-world business problems.

KEY SKILLS

Data Analysis: Python (Pandas, NumPy, scikit-learn, Matplotlib), SQL (PostgreSQL/MySQL), Microsoft Excel (PivotTables, VLOOKUP), Data Cleaning, Data Visualisation

Programming & Tools: Python, Java, HTML/CSS, JavaScript, Flask, GitHub, LaTeX

Tech Environments: Windows, macOS, Linux

Soft Skills: Communication, Teamwork, Problem Solving, Organisation, Critical Thinking

RELEVANT PROJECTS

Reinforcement Learning Communication Model – University Dissertation

- Designed and implemented a reinforcement learning model in Python with PyTorch to optimise agent communication using abstractions.
- Delivered measurable improvement in communication efficiency over baseline models.
- Documented and presented findings using LaTeX to academic standards.

Football Play Style Performance Analysis – University Project

- Collected and analysed football performance data using K-means clustering and regression in Python.
- Created visual insights with Matplotlib, confirming statistical relationships between play style and results.

Sustainability Web Application with Minigames – Group Project

- Built leaderboard and retractable navigation bar features using SQL, Python, JavaScript, HTML, CSS.
- Collaborated via GitHub, deploying a working sustainability-focused platform to promote environmental awareness.

WORK EXPERIENCE

SQL Developer – Rubitek | Aug 2025–Now

- Writing SQL queries to generate customer specific reports.

Data Processor – Cumbria Council | Jun–Jul 2025

- Categorised qualitative survey data for public sector analysis.
- Ensured accuracy and consistency in data classification.

Festive Colleague – Tesco | Nov–Dec 2024

- Monitored and replenished inventory in a high-demand retail section.
- Provided customer assistance and improved product availability.

Work Placement Student – Parker Kittiwake | Apr 2018

- Assembled and packaged industrial equipment components as part of a production team.
- Followed standardised processes to meet quality and efficiency targets.

EDUCATION

BSc (Hons) Computer Science (2:2) – University of Exeter | 2021–2024

- Dissertation: Optimising Agent Communication with Reinforcement Learning using PyTorch

- Modules: Software Development, Web Development, Cloud Computing, AI, Data Analysis, Security, Computational Mathematics, Databases, Computing Law, Ethics

A Levels – HSDC Havant | 2019–2021

- Computer Science (A), Mathematics (A), Physics (B)

GCSEs – Bourne Community College | 2014–2019

- 9 GCSEs including Mathematics (9), Computer Science (8), Physics (8), Statistics (7), English Language (6)

ADDITIONAL INFORMATION

- EPQ (Topic: Impacts of Artificial Intelligence) – Grade A
- Awards: Silver in UKMT Intermediate and Senior Mathematical Challenges (2018–2020)
